

Relative MSE comparison of different models: MCAR_30

```
source("../utils/compute_rel_MSE.R")
data_name = 'MCAR_30'
n_imputations = 10
```

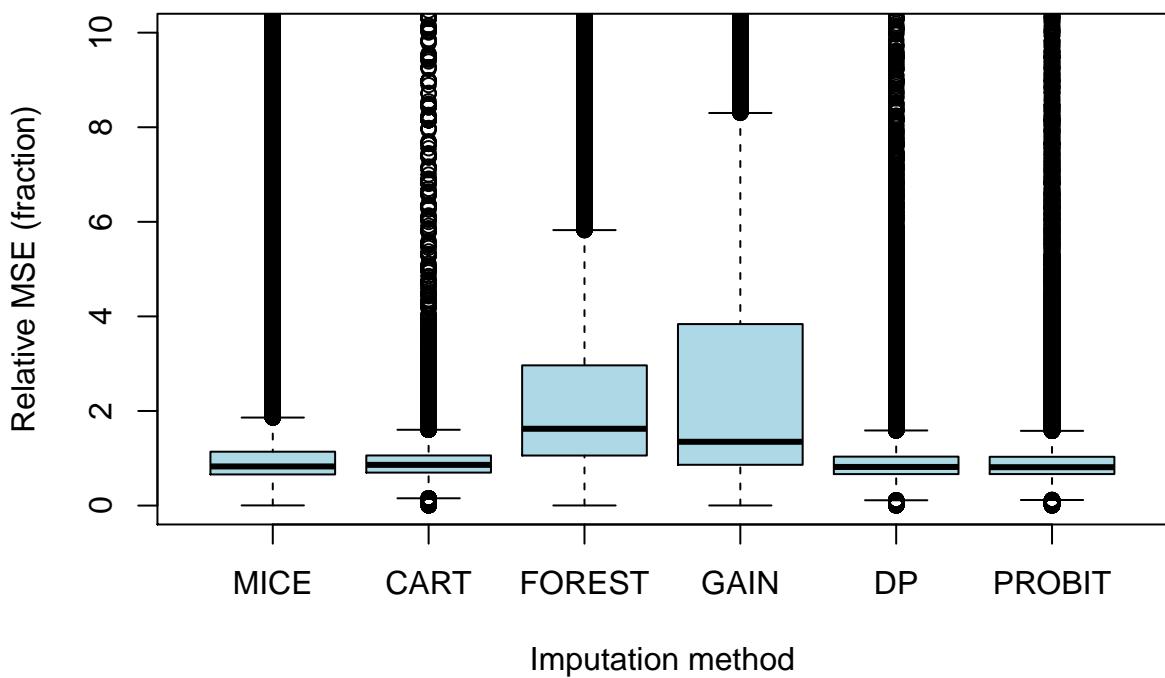

Relative MSE from different imputation methods: Univariate pmf

Relative MSE from different imputation methods: Bivariate pmf

Relative MSE from different imputation methods: Trivariate pmf

Relative MSE from different imputation methods: Quanvariate pmf
